## MMI Preparatory School: Forging Diamond Students Since 1879

(Freeland, PA) MMI Preparatory School recently announced a meaningful tuition reset starting in the 2026-27 school year. Tuition for grades 7–12 will be \$14,350, and tuition for grade 6 will be \$10,000, down from \$17,150 and \$15,110, respectively.

This decision, shaped by hope, responsibility, and a renewed commitment to the School's founding ideals, is an investment in families, community, and the mission that has guided MMI for nearly a century and a half: that exceptional education should be accessible to the families of our region.

What is the value of an MMI education? It can be measured in the amount of scholarship dollars the Class of 2025 earned (over \$3,200,000 from the colleges they chose to attend) or its college acceptance rate (100%). But the true value lies in MMI's ability to foster the growth of students who develop a grounded sense of character, are committed to bettering their communities, and are prepared for life in college and beyond.

MMI offers middle and high school students the hands-on learning experiences, personal attention, and excellent instruction needed to prepare a solid liberal arts foundation and master modern-day skills. The school provides a safe environment, small class sizes, and a vibrant community of faculty, families, alumni, and students. It fiercely defends its commitment to education, with a teaching philosophy built on the pillars of academics, athletics, extracurriculars, and community service. By engaging in all four,

Diamond Students are forged.

In classes, teachers and peers challenge students to reach their full potential. MMI's curriculum offers a mix of traditional classes with advanced instruction and electives. Through a partnership with Lackawanna College, 11th and 12th-grade students also have the option to earn an associate's degree before they graduate high school.

By participating in athletics, students can work on their physical, moral, and emotional development. MMI offers boys', girls', and co-ed teams in a variety of sports, including basketball, baseball, softball, soccer, cross country, tennis, golf, and volleyball.

At MMI, club activities allow students to learn and have fun while developing their character and strengthening their leadership skills. Clubs include: Esports, Poetry Out Loud, MATHCOUNTS, Mock Trial, and Future Business Leaders of America, among others.

While many students volunteer throughout the year, MMI also hosts an annual day of service, which unites all grade levels in hands-on volunteer work. This remains a defining demonstration of MMI's mission to cultivate character, civic engagement, and responsibility in every student.

Throughout the year, MMI offers opportunities for the public to visit the school and see what an MMI education is all about. Prospective students and their families are invited to the next Discover MMI Night on March 25th at 6 PM. For those ready to take the next step, the next Entrance Evaluation will be held on April 25th at 9 AM.

For more information, visit [www.mmiprep.org](http://www.mmiprep.org) or call 570-636-1108.

# The importance of encouraging your child's academic growth

Encouraging words and actions have the power to motivate children to succeed. Encouragement can be the difference between students completing school or giving up on themselves. Here are some important ways to encourage your children's academic efforts to help their overall development.

**1. It promotes personal growth.** Words of encouragement can make your child less likely to doubt their abilities and feel more comfortable working things out themselves. They're reminded that they can achieve success.

**2. It improves self-confidence.** When children feel encouraged by those around them, they're

more likely to have the intrinsic motivation to overcome challenges. When students complete a task successfully, they feel a greater sense of connection within the classroom, further boosting their self-esteem.

**3. It fosters motivation.** Sometimes you may need to encourage your child by helping them reframe a failure as a positive learning experience. Making mistakes is a natural process and can increase their determination to succeed. You can help your children see a setback as a benchmark for improvement.

**4. It encourages independence.** Encouraging and praising your children

for even the most minor achievements or improvements in their efforts helps them become confident in their abilities. This helps them feel they have control over their lives and have the skills within themselves to succeed.

Finally, offering words of encouragement and creating an environment where children feel heard and respected can make them more eager to learn, not just in school but in all areas of their lives.

## One move closer to success

Kutztown University students join a supportive campus community that feels like home, and KU offers endless learning opportunities, student clubs, athletics, and campus experiences.

KU also understands the financial commitment of higher education and is dedicated to helping students and families achieve their goals. About 80% of Kutztown students receive financial aid in the form of scholarships, grants, loans or student employment.

Whether KU students want to play a sport, take a day trip, shop downtown or join a club, they can find ways to connect and grow.

Students learn the skills to excel in the workforce, attend graduate school and achieve success. They are making an impact at companies like Air Products, Lego, Adidas, the Mayo Clinic and many others in the Lehigh Valley and beyond.

The journey of personal growth starts at KU. When students graduate, they're capable of accomplishing any goals they set for themselves. At Kutztown University, it's good to be golden.

There's still time to apply. Visit [www.kutztown.edu/apply](http://www.kutztown.edu/apply).

## SAT Prep Tips for College-Bound Students

(StatePoint) While every college admissions department evaluates applicants a bit differently, standardized test scores are a big piece of the equation at most schools. This means you'll want to be as prepared as possible for your upcoming SAT. Here's how to get ready for this crucial exam:

**Get equipped:** A user-friendly calculator can save you precious time when every second counts, so gear up with a calculator like the fx-9750GIII from Casio. Its Natural Textbook Display and intuitive icon menu make it easy to use. The perfect companion for both the classroom and test day, it features graph plotting, probability distribution, vector arithmetic and spreadsheets, and has programming capabilities. It is also approved for the SAT, PSAT, ACT and AP tests, and

includes an exam mode setting to lock specific functionality for testing purposes.

**Practice:** Familiarizing yourself with the types of test questions you'll encounter on the SAT is essential. When it comes to the Math section of the exam, you can lean on free online resources, like the sample exams found on [casioeducation.com](https://casioeducation.com), to get prepared. The added bonus is that working through these sample questions will help you get comfortable with the calculator you'll be using on test day. SAT prep courses are also a great option. Once out of reach for many families, today, a number of educational organizations offer them for free, leveling the playing field for all students. Be sure to leverage this resource to maximize your test readiness.

**Read, a lot:** From novels to biographies to the newspaper, read everything you can get your hands on. It's one of the best ways to build your vocabulary and hone your reading comprehension. Building these skills can improve your chances of acing the Reading and Writing section of the SAT. Though there are many SAT vocabulary word lists out there, encountering these words in real contexts can be a more effective way to absorb definitions and usages than trying to memorize them.

The SAT can cause a lot of stress and anxiety, but it doesn't have to. With the right tools and preparation strategies, you can walk into the SAT with confidence and achieve your best score possible.

# Helping your child establish effective homework habits early

Ensuring your kid gets into good homework habits from the start is essential for them to do well in school later on. Here are a few simple ways you can help your child become a homework wiz:

- **Create a designated homework space free from distractions, allowing your child to focus solely on their tasks.**

- **Use positive language to help your child view homework as an opportunity to learn and grow instead of a chore.**

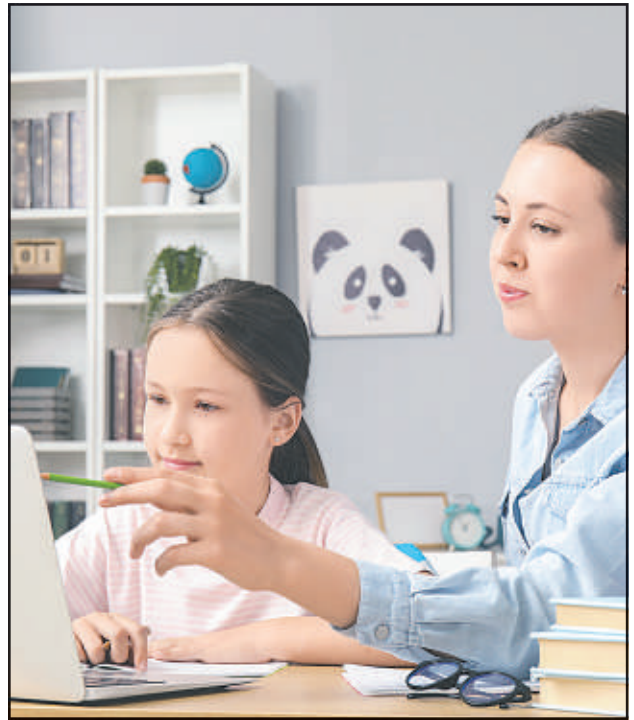

- **Set a consistent homework routine to reinforce discipline**

**and time management skills.**

- **Encourage your child to break down assignments into manageable chunks and create a study schedule that fosters independence and responsibility.**

- **Provide praise and positive reinforcement for completing tasks. This supports their efforts and motivates them to continue practicing good study habits.**

Establishing effective homework habits fosters a lifelong love for learning!

Does your child attend a quality preschool? We are now accepting applications for the 2026-2027 school year. You can call the Tamaqua staff at 570-668-5404 ext. 217 or our main office at 570-544-8959 ext. 212.

We work with families and the community to provide high quality, comprehensive preschool education, with an emphasis on family involvement and supportive services that prepares each child for success in school and a lifetime of learning. Child Development, Inc. is operating five days a week for five hours a day. Our qualified staff look forward to providing a high-quality preschool education for your child through individualized learning activities. We provide breakfast and lunch.

We have off street parking for drop off and pick up and an enclosed play yard for outdoor activity. Serving 86 children in five classrooms, Child Development, Inc. offers PA Pre K Counts and Head Start. Do not wait; we will select children to enroll starting in May.

A high-quality preschool education will prepare your child for school and a Lifetime of Learning. Call today to see if you qualify for a FREE preschool education for your child 570-668-5404 ext. 217 or 570-544-8959 ext. 212. Visit our website at [www.childdevelop.org](http://www.childdevelop.org).

# Teaching your child good time management skills

Teaching your kids good time management skills can be challenging, but it's essential for their success in academics and life. Here are some tips to help you teach these skills to your children:

## Create a visual schedule or planner

A physical schedule or a planner can help kids organize their daily

activities and deadlines. It can enhance their organizational skills and instill a sense of responsibility and accountability. Plus, it can be a fun and creative activity for you and your child to do together.

You can also utilize digital tools like calendars or task management apps tailored to kids.

## Encourage task break-down

Teach your child the concept of time blocking, where they allocate specific time slots for different activities or subjects. Breaking tasks into smaller, manageable chunks can promote productivity and prevent your child from feeling overwhelmed.

## Set realistic goals and deadlines

Teach your child the importance of setting realistic goals and deadlines by helping them understand the concept of time estimation and the consequences of procrastination. This will empower them to make informed decisions and own their time.

Most importantly, lead by example. Let your child see you planning

your day, setting goals and managing your time effectively in real-life scenarios. Children often learn best through observation and copying their parents' actions.

Remember, teaching your child good time management skills is an investment in their future.

# Why do I need an education if I want to become a business owner?

If your dream is to be an entrepreneur, you're probably ready to take risks that other people aren't. For those who don't want to waste time before entering the job market, the value of an education might be unclear. That being said, to gain the experience, capital, and know-how that you'll need to run your own business, whether it's automotive repair, food service, or engineering, requires help in one way or another.

For those who want to get going with their plans as quickly as possible, trade schools offer an attractive alternative to the traditional university. Not only will they usually put you in less debt than the latter, allowing you to accrue capital quicker, but they also

tend to take less time to complete. Students in trade schools enter the job market two full years earlier than others, with the skills they need to succeed. Trade schools and polytechnics can, in fact, be the quickest path towards starting your own business.

## Strong Roots In Education

Bethlehem 1st Federal Credit Union has strong roots in the educational community. Established in 1935, we began serving the Bethlehem Area School District employees. We have grown to include major institutions like Lehigh University and Moravian University. Today, we not only serve employees of many local schools, but also have several Student Groups.

Learning about financial well being is key in today's world. We are doing our part by providing young people with the opportunity to begin managing finances with our Student Care Package Account.

Knowledge and experience has allowed Bethlehem 1st Federal Credit Union to become a trusted and respected financial institution to almost 5000 members in the Lehigh Valley.

Check our website at [www.beth1st.org](http://www.beth1st.org) to see if you are eligible for all that Bethlehem 1st has to offer.

## SMART FINANCIAL CHOICES START HERE

**Bethlehem 1<sup>st</sup> FCU proudly serves local educational institutions including 7 student groups. Students attending these schools are eligible for membership:**

- Bethlehem Catholic High School
- Freedom High School
- Liberty High School
- Lehigh Valley Academy
- Bethlehem Area Vo-Tech
- Lehigh Valley Charter High School for the Arts
- Moravian University

**Be sure to check out our Student Care Package – it's the best student account around.**

# You Belong at ESU, Where Scholarship Opportunities Help Students Attend College, Pursue Career Goals

ESU is Where Warriors Belong, and it's where David Akinwande belonged – which helped him land a position at Children's Hospital of Philadelphia after graduating with his nursing degree.

“ESU gave me the opportunity to develop skills, knowledge and confidence to work at one of the country’s most prestigious children’s hospitals,” said Akinwande. A member of ESU’s football program and president of the Student-Athlete Advisory Committee, he also assisted a local health network during the pandemic. Join him at [wherewarriorsbelong.com](http://wherewarriorsbelong.com).

### Merit-Based and Transfer Scholarships Among Financial Aid Offerings

ESU has many resources to provide affordable and accessible opportunities, including merit-based scholarships that range from \$1,000 to full-tuition and are renewable for eight semesters, while maintaining the necessary grade-point average.

There are also scholarships for transfer students, from \$1,000 to \$6,000. Students applying for scholarships must meet specific requirements, available at [ESU.edu/merit](http://ESU.edu/merit) or contacting [admission@esu.edu](mailto:admission@esu.edu).

All ESU students enjoy tuition that’s significantly lower than large research universities and private colleges in PA, NY and NJ. In 2024-25, ESU awarded more than \$2 million in scholarships.

### ESU Today. Success Tomorrow.

ESU prides itself on placing students first and its commitment to student success, with 50+ majors, 21 master’s and two doctoral degree programs.

The University offers state-of-the-art technology to study fields from exercise science, athletic training, nursing and the biological sciences to additive manufacturing and 3D printing, art + design and digital media technologies. Immerse yourself in hospitality,

recreation, and tourism management; sport management; business management; social work and criminal justice; psychology; and our nationally-accredited teacher certification preparation programs. ESU’s proximity to NYC and Philadelphia provides access to internships, careers and social activities. Minutes from campus are the country’s largest water parks, Delaware Water Gap National Recreation Area, Appalachian Trail and other opportunities for recreational fun.

### See for Yourself

Visit ESU, meet students and faculty and see why ESU is Where Warriors Belong! Register at [ESU.edu/visit](http://ESU.edu/visit).

### Upcoming Events

# Notetaking 101

Mastering effective notetaking is essential to your success, whether you're in high school, college or university. Try these simple tips to improve your technique.

## Prepare your materials

Before class starts, gather everything you need, including pencils, highlighters, sharpeners, erasers, rulers and more.

## Practice active listening

Eliminate distractions during the lesson. Listen carefully so you can pinpoint key information and jot it down. Don't hesitate to ask questions for clarification on certain points.

## Use abbreviations

Speed up your writing by using abbreviations and

symbols. For example, write "b/c" instead of "because," and use an asterisk to mark something important.

## Write down only the essentials

Writing everything down is unnecessary

and unhelpful. Instead, concentrate on the main ideas, key concepts, important dates and relevant examples.

## Use visual aids

Add arrows,

tables, geometric shapes, pictograms or diagrams to illustrate relationships between concepts.

## Structure your pages

Well-structured notes will help you better memorize and understand the information. Organize your notes with titles, subtitles and bullet points to create a clear layout. Leave spaces between sections to enhance readability.

## Revise your notes

Spend a few minutes after class reviewing and completing your notes. Rephrase sections to improve clarity, if needed.

You'll find that the more often you take notes, the better you'll become.
